TECHNICAL SKILLS

Programming Languages	Python, Java, JavaScript, SQL, Rlang
Models & Frameworks	React, Next.js, REST API
Software & Tools	Redis, Git, Node.js, Numpy, Panda, PowerBI, Latex

PROJECTS

ductran.net (github.com/englishlayup/ductran.net)
Personal blog built using the Next.js framework. The site uses static generation to fetch posts from my Redis Cloud database and render all pages at build time. This results in low first contentful paint and high search engine optimization.

Blunder Dodger Destroyer (github.com/englishlayup/blunder-dodger-destroyer)
Chess Engines written in Python using Alpha Beta Pruning and Monte Carlo algorithms.
